

Long Haul Medical Bag System 2004

Greetings, Thank you for inquiring about our fine Long Haul Products for the fire and ambulance services. We are convinced that the design and materials used in our products are the finest available.

MARK ECKHART, Owner of Long Haul Products worked with a major metropolitan fire department as a career firefighter for 20 years. While on the job, Mark was in charge of development and production of the departments sewn equipment. With many years of experience in design and production of quality sewn equipment, Long Haul Products has taken a giant leap forward in quality designed sewn products for the fire and ambulance services.

Our Pro Series medical bags are designed for the Fire and EMS professionals, who deserve to have the finest products available. The design and materials used in our medical bags make them far superior to anything on the market today. Our designs are based on function, durability, and safety and make for easy repair, if necessary.

Pro System 1 (FD-001).

This is our largest medical bag that we manufacture at this time. It has all the space required for a complete selection of *advanced life support equipment*. This bag features: two exterior pockets, four interior pockets and plenty of accessory tie downs, as well as two hundred square inches of 2" wide 3M reflective materials. The dimensions of the **Pro System 1**, are: 18" x 14" x 12" and including a spacious 3024 cubic inches are in the main compartment with three compartment dividers. *Optional accessories include: Lexan lid stiffener, airway kits, drug bag and BP cuff bag.* (Pro-System 1-shown, closed and right shown open. Medical equipment shown, not included)

Pro System 2 (FD-002).

This fine bag has all the same interior features as the *Pro Rescue 1*, but with a lower profile. This bag carries like a suitcase, with enough room for a complete selection of EMS equipment. The dimensions of the **Pro System 2** are: 18" x 14" x 10" and include 2520 cubic inches. *Optional accessories include: Lexan lid stiffener, airway kits, drug bag and BP cuff bag.* (Shown right)

Pro System 3 (FD-003).

This bag was designed for the EMS professional interested in a smaller carrying capacity and a lighter load for initial patient contact. It features: two exterior pockets, two interior pockets and three interior bag dividers. The dimensions of the **Pro System 3** are: 14" x 14" x 12" and include 2352 cubic inches. *Optional accessories include: Airway kit, drug bag and BP cuff bag.* (shown lower right)

ID # and Name	Dimensions	Cubic Inches	Color
FD-001 Pro-System 1	18" x 14 x 12"	3024 cubic inches	Grey
FD-002 Pro-System 2	18" x 14" x 9"	2268 cubic inches	Grey
FD-003 Pro-System 3	14" x 14" x 12"	2352 cubic inches	Grey

Long Haul Medical Bag System 2004

Long Haul Airway Kit # 1 (FD-004).

This is our full size airway kit that holds a complete selection of Airway management equipment. This kit is the perfect fit for the *Pro Rescue 1* and *Pro Rescue 2* medical bags. (shown right-bottom)

Long Haul Airway Kit # 2 (FD-005).

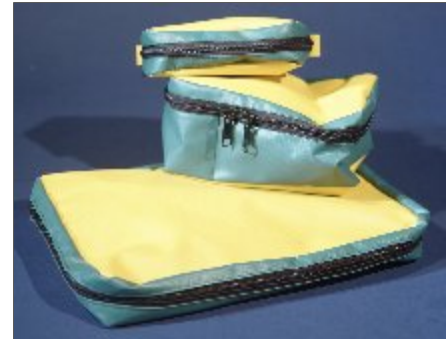

This fine kit is smaller than the *FD-004* and is designed to fit into the *Pro Rescue 3* medical bags.

Long Haul Drug Kit Bag (FD-006).

It is designed for storage of many first line medical medications. It fits into all of the *Pro Rescue* medical bags. (shown right middle)

Long Haul Blood Pressure Cuff Bag (FD-007).

This bag is perfect for the B.P. cuff or many other small medical equipment accessories. (shown right top)

Long Haul Hose Pack (FD-008).

This tough hose pack is designed to carry 100 feet of 1 3/4" attack line, a gated Y and a variable gallon-age nozzle. Rapid deployment to upper floors or long hose lays beyond standard pre-connects is made easier with this fine bag. Just the right size for 100 feet of 2 1/2" attack line also. (shown above)

Long Haul Hydrant Wrench Bag (FD-009).

This heavy-duty bag holds a hydrant wrench, spanner wrenches, cheater bar and flares. The firefighter can leave the truck with this bag and the supply line and have everything they will need to hook up to the hydrant. (shown left)

Long Haul Extension Cord Bags (Large FD-010 and Small FD-011).

Stuff your extension cords into these bags, just like a rope bag and deploy your extension cords, trouble free. *FD-010* holds 100 feet of cord and *FD-011* holds 50 feet of cord. These bags work great!

Here is how the *FD-010* and *FD-011* work. Tie a loop in the middle of the extension cord and then secure the loop through the 1" webbing and buckle at the bottom of the bag. Next, stuff the extension cord into the bag. The male and female plugs lay at the top of the bag, ready to grab and pull to work. The bag remains attached permanently to the extension cord. The top of the bag closes with a roll down closure and a side release buckle.

Long Haul Rope Bags (Large FD-012, Medium FD-013, Small FD-014 and Rope Pack FD-015).

These are the best rope bags made. The bags are made with: side--1050 D. ballistic cloth, bottom--41oz. hypalon rubber and all the webbing is nylon. This particular bag features: 2" carry handle, 1" carry strap, 2" 3M reflective material, 4 mm cord through re-enforced grommets with a heavy duty cord lock.

Long Haul Medical Bag System 2004

Long Haul Personal Rescue Rope Bag (FD-016).

Use this rope bag for aiding in search or repelling. Same heavy-duty construction as all of our rope bags. This will fit onto belts up to 4" wide.

ID # and Name/Size	7/16" Rope	Dimensions	Color
FD-012 Rope Pack	700'	27" x 14"	Black
FD-013 Rope Bag Large	400'	27" x 11"	Black
FD-014 Rope Bag Medium	275'	21" x 10"	Black
FD-015 Rope Bag Small	200'	14" x 11"	Black
FD-016 Personal Rescue Rope Bag	50'	10" x 6"	Black

Long Haul Double End Rope Bags (Large FD-017, Medium FD-018 and Small FD-019).

Drawstrings come standard at both end openings. This enables the user the ability to rotate the rope using both ends equally. The diameter of rope used is 1/2". The lengths of rope included in each bags are: *FD-017 (300 ft. rope), FD-018 (200 ft. rope) and FD-019 (150 ft. rope).*

ID # and Name/Size	1/2" Rope
FD-017 L.H. Double End Rope Bag Large	300'
FD-018 L.H. Double End Rope Bag Medium	200'
FD-019 L.H. Double End Rope Bag Small	150'

Long Haul Water Rescue Throw Bags (Large FD-020, Medium FD-021 and Small FD-022).

Standard equipment for all rescue vehicles. This quality throw bag comes in three sizes. The 3/8" yellow and red diamond braided polypropylene line that is included floats. The lengths of rope that are: *FD-020 (75 ft. rope), FD-021 (60 ft. rope) and FD-022 (30 ft. rope).* (shown right)

ID # and Name/Size	3/8" Rope
FD-020 L.H. Water Rescue Throw Bag Large	75'
FD-021 L.H. Water Rescue Throw Bag Medium	60'
FD-022 L.H. Water Rescue Throw Bag Small	30'

Long Haul Evacuation Stair Chair (FD-023).

The perfect evacuation chair for those patients that are in areas with poor egress. (shown right)

Long Haul Self Contained Breathing Apparatus Mask Bag (FD-024).

There are two reasons why all masks should go into a mask bag. First, firefighters' lives depend on this equipment. Secondly, is the cost of replacing a scratched lens? Our *SCBA* mask bags provide excellent protection with a zipper closure and 1/8" closed cell foam padding between 1000 D Cordura and 200 D Nylon fabric.

Long Haul Bunker Gear Bag (FD-025).

This is the perfect bunker gear bag for those folks that are traveling from one station to another. This particular bag is made with: 1050 D Ballistic cloth, nylon webbing and a # 10 YKK zipper.

Long Haul Four Pocket Bunker Gear Bag (FD-026).

This is a fine gear and travel bag. 1050 D Ballistic cloth, nylon webbing and all zippers are # 10 YKK, are what makes this the finest bag available.

Long Haul Medical Bag System 2004

Long Haul Gear Bag (FD-027).

This high quality gear bag is perfect for storing and moving equipment. It features: wrap around nylon carry handles, end carry handles, 1050 D Ballistic cloth and # 10 YKK zippers.

Long Haul Iron Bags (Large FD-028, Medium FD-029 and Small FD-030).

Our Iron bags are made to handle the heavy stuff, for example chains and the like. Load these bags up and nothing can go wrong.

Long Haul Technical Rescue Bag (FD-031).

This fine high angle rescue bag holds everything you need for an initial response to high angle emergencies. (shown below, equipment not included, open, back and front)

Long Haul Head Chuck Set (FD-032).

Used for those medical emergencies that requires the patients' head to stay stationary.

Long Haul Glove Pouch (FD-033)

A small pouch to keep your gloves at your fingertip for easy access from your belt loop.

Long Haul Oxygen Container Bag (FD-034).

Keeps the oxygen cylinders from getting banged around while getting to the site. (shown right)

Long Haul Medical Bag System 2004

- III. 3M reflective material --Highly reflective material adds to the emergency personnel's safety while working on roads in low visibility conditions.
- IV. Medical bag dividers are made with 1-1/2 inch closed cell foam covered with 11 oz. vinyl coated nylon.
- V. These materials will not absorb body fluid and petroleum products.
- VI. Zippers-all #10 YKK coil zippers. These are the heaviest coil zippers manufactured by YKK.
- VII. Hardware metal and plastic, metal is used in all heavy load areas.
- VIII. Nylon webbing is used because of its superior strength and appearance.
- IX. These materials will not absorb body fluid and petroleum products.

BAG FEATURES:

- Lid comes completely off so zipper can easily be replaced.
- Lid Stiffener so one can sit on the bag once full.
- Pockets are colored coded: Green-Oxygen masks and Yellow-BP cuff.

CLEANING AND MAINTENANCE OF BAGS:

- Clean with sponge or brush with warm soapy water. Towel dry or hang to dry and use 303 protectant.

The Long Haul Medical Bags

Our *Pro-Series* medical bags utilize the finest, most durable material available. By using 41 oz. Hypalon rubber on the body of our medical bags we far exceed the quality available on the market today. The reasons for using Hypalon rubber is due to its extreme durability, long working life and ability to not absorb body fluids and petroleum products.

Long Haul Guarantee

WARRANTY TERMS—

All Long Haul manufactured products are guaranteed. Long Haul Products offers a five year warranty on all materials and workmanship. If there is any problem with any of our products please contact us.
